Get Your TCA Skin Peel Today

A skin peel exposes a new fresh layer of skin with a more even color and a smoother texture. In addition, the peel stimulates new cells to grow, thereby tightening the skin, which decreases wrinkling.

Chemical Peels are consistent and affordable. If you aren't getting your peels regularly then you are doing your skin a disservice. Whether yearly 3-6 light peels at every 2-4 week intervals or 1-2 medium concentration TCA peels, your skin needs them. Look younger, more vivacious and impress people with your looks.

Growing older is mandatory, Growing old looking is optional.

Everybody Needs A TCA Peel Yearly!

Why Spend A Lot On Unpredictable Laser Treatments When Chemical Peels Are More Cost Effective and Predictable!

Mini-Lifts - Ask Dr. Hansen TODAY!

A Mini-Lift can make patients look up to 10 years younger in a few hours with very little down time and under local tumescent anesthesia. The Mini-Lift involves tightening the lower third of the face which includes the lower half of the cheeks, neck and jawline. Soft tissue is gently lifted and tightened with the excess

skin being removed through an incision along the ear and behind the earlobe. Results may be further enhanced with facial and neck liposuction and subsequent chemical peels to smooth wrinkles and remove discolorations.

Ask Dr. Hansen if a Mini-Lift is right for you!

THE DOT *Finally someone has cleared this up.*

For centuries, Hindu women have worn a dot on their foreheads. Most of us have naively thought this was connected with tradition or religion, but the Indian embassy in Ottawa has recently revealed the true story.

When a Hindu woman gets married, she brings a dowry into the union. On her wedding night, the husband scratches off the dot to see whether he has won a convenience store, a gas station, a donut shop, a taxi cab or a motel in the United States.

If nothing is there, he must remain in India to answer telephones and provide us with Verizon technical support.

Arm Tucks!

Get rid of flabby arms waving in the WIND. Dr. Hansen liposuctions all the way around the arms and then excises the excess skin and hides the incision in the armpits. He also does BodytiteRF (QuantumRF) and Morpheus8 to give the finishing touches. All under tumescent local. Faster, easier recovery and less downtime.

Feel Better About Yourself!

Look More Confident!

Dr. Hansen is truly an artist when it comes to liposculpture. The safe new microcanula tumescent techniques have made this one of the most rewarding procedures in the country.

Get rid of those nasty bulging thighs, protruding abdomen, double chins and jowls, unsightly love handles and hips, buttocks, knees, arms, chests, calves and even ankles.

Local Anesthesia Only! NO General Anesthesia needed.

Dr. Hansen does not do Laser Liposuctions because results from other docs have been disappointing and more risky, since we are seeing patients coming in with a lot of dimpling, puckering and burns.

This is why they are cheaper now - and for good reason.

Luscious Lips

LIP IMPLANTS
\$3000-\$3500 ea.

Luscious lips have and always will be a thing of beauty. Soft permanent implants have replaced the repetitive more costly (over time) fat or collagen injections. Now in as little time as 20 minutes, you can have enhanced lips permanently, which look naturally beautiful.

The soft implants are easily placed in the lips under local anesthesia. Healing is very quick. Swelling may last from 2-5 days but usually is minor enough that most patients return to work the next day.

Many people want the borders of their lips enhanced since, with age and especially smokers and sun worshippers, they tend to lose the definition to the border of their lips where fine lines develop. Some people wish to have their lips enlarged slightly to give that more voluptuous look.

Lip Enhancements are so easy and natural looking. There are several lip implants to choose from now. Have Dr. Hansen show you them and advise you on which would be best for you.

Stop wasting money on fillers - Get those beautiful lips forever.
